

## Exercice GMO-PAV-5

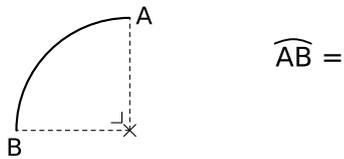

Calcule la longueur des arcs de cercle ci-dessous. Le rayon de chaque arc est de 1.5 cm. Les centres des arcs sont indiqués par des petites croix. Indique les résultats en cm avec 2 chiffres après la virgule.

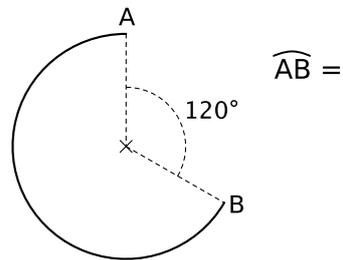

Rayon:  
 $r = 1.5 \text{ cm}$   
 Périmètre:  
 $p = 2 \pi r = 9.42 \text{ cm}$
